Opening keynote (left) and community keynote (right) at JavaOne in San Francisco, 2015

The communiy art project by social media artist Wolf Nkole Helzle is designed for audience participation. Using a specially developed software, it enables people to upload their own pictures. From hundreds to thousands of individual pictures a 3D-mosaic will be calculated. „The future is invented constantly new. With myMatrix I implement this process pictorially: With the help of stunning technique a 3D image world passing by, in which all parties will find both their own contributions, and can follow the resultant overall picture".

myMatrix on tour:

MUNIC
2014 the first performance was held in Unterhaching nearby Munic. The occasion was the 30th anniversary of the InterFace AG, which is an important project partners with their IF Lab. The images of the matrix came from both the company's own collection from its 30-years history as well as currently shared by the guests.

BRUEHL
in March 2015 the 1,000 participants of the Java-Land-community made a big picture were everyone was invited to upload his impressions of the JavaLand-Conference via smartphone.

LUXEMBOURG
Together with the participants of the annual meeting of the I AM WE_project and the population of Luxembourg and their guests, the 3D mosaic was filled with pictures and shown during the Luxembourg Festival from 22 to 25th May 2015 night and day on the Place d'Armes.

BEIJING
The artist together with his students of the College of Art and Design at the University of Technology, Beijing, uploaded their pictures to the myMatrix-database to build a huge Beijing-Matrix shown at an exhibition in Beijing.

SAN FRANCISCO
The around 10.000 attendees of the JavaOne-conference uploaded their pictures of the anual event onto the myMatrix-Server for a big picture. Also the pictures of 20 years of Java were shown with a Matrix at the opening keynote of the conference.

STUTTGART
PM Camp Stuttgart 2016 / Die Kunst des Projekts / has invited Wolf Nkole Helzle and his collective art project myMatrix. All participants uploaded their pictures for a Matrix of the PM Camp.

BIRMINGHAM
The aim of the project is a multidimensional portrait of Birmingham with all its various aspects, consisting of thousands of individual images. Uploaded by all involved in the project, local partners and interested multinational groups to the myMatrix server. On Saturday 15/05/2016 the public presentation of the results took place.
... „The testimony of Joseph Beuys is entirely on my line: ,*The future that we want has to be invented, otherwise we get one, we do not want*' - I am very interested in finding out more about it with this project, how we invent the future that we want. myMatrix on tour."

THANK YOU!

Your personal ID is: *z8u*
Use the ID to directly visit your uploads in the project *javaone*.

Upload more

1 Go to the landing page, you will find your project(s) URL

2 Upload your pictures via smartphone onto the current project of the myMatrix-server

3 At the end of the upload you´ll get an ID. Within the finished matrix you are able to enter this ID and your picture will be shown. Larger amounts of data can be uploaded directly by the operator

4 The matrix is calculated by the artist and then projected onto a big screen. while running in the mode of „autoflight"
