

ii_usermeeting in Luxembourg

Three years ago the net art project *I AM WE_interactive image* was going online. At this time Klaus Haasis and Kai Bierich makes the space of their a+gallery in Stuttgart available for me, also in order to invite the users to a joint exhibition together with a user meeting and a symposium. I can still remember very well the overwhelming moments, to meet and share now personally too.

ii_family The network - affectionately called „ii-family“ - counts now more than 400 users from all over the world. In these three years, far more than 50,000 images were uploaded to the respective diaries and with over 160,000 comments we communicated also vigorously.

Friends People accompany themselves across countries in their daily lives, there are many, also emerged deep friendships, some joint projects and amazing new insights can be reported. You just know suddenly a lot from each other, dividing everyday life.

Encounters After Stuttgart, Izmir and Turku we meet this year from 20th to 27th of May in Luxembourg, this time under the theme encounters. The first three days we'll explore this city in the heart of Europe photographically. All pictures are incorporated into an interactive projection, which will be shown at the Place d'Armes every night from 10 to 5 on Pentecost at the festival „Enjoy Luxembourg“.

Symposium The two-day symposium concludes with a full program of meetings of different religious communities, workshops, lectures and parties directly to it.

Sightseeing And it's already become the rule that such a meeting closes with a tour program. This year it takes us in the moor of the Hohes Venn, the exhibition „Family of Men“ and the Dancing Procession Echternach.

New Walks

The series of walks - photographic densities - has grown. Once there was a very great interest in this work on the art fair „art Karlsruhe“, I was much encouraged to go on tour again (what makes great fun to me).

Exhibition in Mariaberg

As this notice adapts equally well to the upcoming exhibition „photographic densities“ in the cloisters of this former monastery. Many walks will be shown, some multiple portraits and first images from the new series „just happened“.

The exhibition will be opened on June 21, 14 o'clock with an introduction by Ricarda Geib and with Lauren Newton's virtuous vocals and then will be on view until September 13.
