

## ii\_usermeeting\_2015 in Luxembourg: ENCOUNTERS

**myMatrix as a guest at the Luxembourg Festival.** After three-day photographic explorations of 20 participants from different European countries at this year's User Meeting of the appreciative community-net art project „I AM WE\_interactive image“ the installation myMatrix on the Place d'Armes with more than 4,000 pictures of different viewpoint was opened in this city in the heart of Europe as a part of the Luxembourg Festival „Enjoy Luxembourg“. This together with the IF-Lab InterFace AG, Munich / Nuremberg, developed 3D mosaic was shown day and night on a super-precision flat screen video wall, in interaction with various musician groups.

**The two-day symposium** was packed full with lectures, workshops and visits to various religious communities such as the Baha'i, Judaism and Christianity. Pastor Volker Strauss gave us therefore the center of the Protestant community in Luxembourg.

**On the two days sightseeing** we wandered in the upland moor of the Hohes Venn, visited the Dancing Procession in Echternach and the impressive Collection Steichen „Family of Man“ in Clervaux.

Many of the participants said goodbye with „see you next year in Birmingham“, where we are invited to the ii\_usermeeting 2016 with the theme of „sharing“.

## Cloisters in Marienberg

The cloisters of the former monastery Marienberg invited me literally, to be equipped with the Upper Swabian pilgrim routes from the series of the „walks“. These are lined with some copies of the „walks“ of the Swabian Alb and Japan, as well as multiple portraits from the series „homo universalis“ and also the first time images of the new series „just happened“.

The exhibition will be opened on June 21, 2 o'clock p.m. with an introduction by Ricarda Geib and with vocals by Lauren Newton and then will be on view until 13 September.

Klosterhof 1, 72501 Marienberg, Tel. 07124 - 923 218
