

FACE(S) OF AFRICA

With contacts in Benin, Congo, Zambia, Ghana, Tanzania, Côte d'Ivoire, Uganda, Rwanda, Namibia, Kenya, Gambia, South Africa and Botswana, the project continues to grow and is currently in various stages in all these countries.

I am very happy about the support from local German embassies and Goethe Institutes as well as from private individuals, associations and institutions.

Prof. Dr. Mensah WEKENON TOKPONTO recently sent me more than 100 portraits of his second and third year students of the German Studies Department of the University of Abomey-Calavi in Benin.

First photos have also been received from Kinshasa, Lusaka and Kampala.

The presentation is also developing. On the right, for example, there is a first draft of a flag for Benin, which is to fly in an exhibition with all the others. There are also initial ideas for a website, but partners are still being sought for the implementation.

At the moment, the current status of the project can be found on my website: [http://helzle.com/de/interaktiv/face\(s\)-of-africa/](http://helzle.com/de/interaktiv/face(s)-of-africa/)

Donations are still welcome
